Reply to letter from Arxx Building Products Inc. dated 12.12.2007 regarding Patent  
Nº 5,657,600, which was only received by courier.

Dear Mr. Frank O'Dea,

I have given your reply considerable thought and the content of your letter surprised me. I was never an officer or director (only shareholder) after Horatio bought 50% of the company. Also the remark that the company has paid significant compensation to me over the years is to my opinion incorrect. I received the loan, interest and share value as other shareholders did.

In reality I had more aggravation and undermining my business attempts from Arxx members when starting up my company here in Europe.

I will be in Cobourg for other business mid March and if you are interested I could make myself available for a meeting.

Please let me know.  
Best regards

Henk Mensen
